WV Congressional Delegation CDC Letter.pdf
DRAFT RESPONSE.docx

Cecil,

FYI, this is a second letter that was sent only to CDC. CDC just wants to know if we have any comments; there is no EPA signature. We are able to say that we have no comments.

The other letter that I forwarded (in Linda Miller's email) is the Rockefeller letter that was directed to CDC and EPA and in theory is to be signed by both agencies. That needs more of a review and comment, plus determination if we are okay with CDC signing and then sending a separate letter that would also contain the CDC letter.

Thanks,

Ken

Subject: Draft CDC response to WV delegation request for health studies

Hi Linda and Mark,

In addition to the draft CDC response to the Feb. 27 Senator Rockefeller letter to CDC and EPA re: long-term public health risks, attached is a separate draft CDC response to the WV delegation requesting epi-tox studies and population monitoring. CDC has requested any EPA comments today on the delegation letter.

Can you let me know if this is doable and also if any EPA Region III input for the Rockefeller letter?

Thanks.
